SUMMARY

Results-driven Full Stack Web Developer and ITE student with hands-on experience designing and delivering scalable, production-ready web applications. Proficient in Next.js and Laravel with MySQL, and experienced in implementing secure authentication systems using JWT and Laravel Sanctum. Proven ability to build responsive, user-focused interfaces alongside robust back-end architectures — demonstrated through real-world projects including a School Management System and a University Housing Administration platform. Committed to writing clean, maintainable code with a strong focus on performance, reliability, and long-term scalability.

SKILLS

Front end : React.js, Next.js, Redux, Zustand, React Query, Tailwind CSS, Bootstrap, Blade Alpine.js ,HTML5, CSS3

Backend : Laravel , RESTful API, JWT Authentication , Laravel Sanctum, Laravel Breeze Meilisearch,WebSockets(Reverb),Pusher,MVC Arcitecher,

AI & Intelligent Systems : AI Agents Building, System Analysis & Architecture, Agent .Orchestration, LangChain, LangGraph, RAG (Retrieval-Augmented Generation)

Data base : Mysql, Firebase, Oracle, PostigerSQL

Program Language : C++, Java, Javascript(ES6+), php, python ,sql

Soft skills : Problem solving Debugging, team collaboration,ICDL (International Computer Driving License), power bi

PROJECT

SCHOOL MANAGEMENT SYSTEM (FULL STACK) :

Stack: Laravel, MySQL, Laravel Reverb (WebSockets),Blade ,alpine.js ,Breeze,Tailwind CSS ,

Core Modules: Developed comprehensive modules for automated attendance .tracking and academic reporting (Grade Sheets/PDF generation)

Real-time Features: Integrated a smart notification engine and an internal instant .messaging system (One-to-One & Group) using WebSockets

Data Insights: Built an interactive dashboard with data visualization to monitor .student performance trends and attendance analytics

System UI: Implemented a responsive interface with multi-language support and .Dark/Light mode toggles

GITHUB

UNIVERSITY HOUSING ADMINISTRATION SYSTEM (FRONT-END):

.Tech Stack: React, Material UI (MUI), Zustand, React Query, Axios

- **Multi-Role Dashboards:** Built dynamic interfaces for various user roles (Admin, Accountant, Student,) to manage complex administrative workflows
- **State & Data Handling:** Implemented Zustand and React Query for efficient state management, API caching, and real-time data synchronization.
- **Modern UI/UX:** Crafted a responsive, consistent UI using Material UI, focusing on scalability and accessibility.
- **Team Collaboration:** Integrated RESTful APIs in coordination with Backend developers to ensure a modular and scalable codebase.

GITHUB

EDUCATION

Bachelor's in Information Engineering (4th Year) | Aleppo University | Present.

Full Stack Web Development Workshop (React & Laravel) Midad Academy

VOLUNTEERING EXPERIENCE

Data Analyst | Sanad Youth Center Duration: April 2026 – Present

Collect, clean, and organize complex datasets regarding dismissed employees to ensure high accuracy.

Collaborate with Aleppo Development Directorate to streamline data flow and support social procedures

Analyze tracking data for stakeholders while maintaining strict confidentiality and security of records

LANGUAGES

- kurdi kurmanji (mother language)
- Arabic (Native)
- English (Professional Working Proficiency)
